Election/Restriction

Applicant's election of claims 1-31 and 42-54 filed January 16, 2002 is hereby acknowledged. However, upon further consideration, the following restriction is additionally applicable:

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-2, 5-29 and 42-54, drawn to a method for making a paint composition, classified in class 106, subclass 443.
- II. Claims 3, 4, 30 and 31 drawn to a business method classified in class 705, subclass varies.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are clearly unrelated because method for doing business such as selling has a significantly different mode of operation than the herein claimed method for the production of a paint composition.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter and different classification, restriction for examination purposes as indicated is proper.

Art Unit: 1755

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
